(54) SERVICE PROVIDING SYSTEM AND SERVICE PROVIDING METHOD

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a service providing system and a service providing method in which a service provider introduces internet service, which a service representative provides, to a user, makes the service representative provide the service selected by the user, and collects fee for the service from the user instead of the service representative.

SOLUTION: A computer of the service provider displays menu of the internet service which computer of the service representative provides on a member's terminal, makes the service representative provide the user with the internet service selected by the member, and tolls fee for the internet service for the member instead of the service representative.
